

Implementing technology into teaching and learning, embracing the change

Sari Lantto, Ylitornio upper secondary school

Headteacher, Swedish teacher, Apple Distinguished Educator

1:1 iPad-program since 2013

What is an excellent school like? What is your definition for excellence in education?

Vision

Why does this school exist?

What drives us and why?

What key skills should children learn and why?

How do we ensure children will learn these skills successfully?

What will the school and learning look like?

How do we all work together to achieve this?

Change

What do we want to change in education by implementing technology? Why?

What has already changed?

Eight Elements of Success

1. Vision
2. Team
3. Community
4. Learning
5. Ongoing professional learning/teacher training
6. Environment design
7. Measurement
8. Finances
